CAREER PROFILE

Passionate, responsible and committed engineer, with a get-it-done, on-time spirit.

Skilled in all phases of the software development lifecycle; expert in translating business requirements into technical solutions.

Good practices lover. Avid reader. Enthusiastic team player.

Proud active member of various open source groups (like GrUsP, PUG Roma and PUG London).

LATEST EXPERIENCES

Senior Software Engineer

01/2016 - Present

LendInvest, London

Collaborate with developers, QA, product owner in an AGILE environment to release a new, enhanced web application for the financial market using rich modeling/DDD approach, based on microservices architecture and rest api consumed by a React Js frontend application. Faced many challenges to optimize performance and scalability. Integrate many third party system taking into consideration interchangeability (loose coupling) and reliability.

Our stack consists mainly in PHP7 + Symfony3 + Node Js + Docker + AWS.

Software Engineer

01/2015 - 01/2016

Chupamobile, Rome

Migrate an App Mobile ecommerce from a legacy Yii platform into a more reliable, modern and tested architecture based on microservices using Silex, Symfony, Docker and AWS. Our team collaborated on a daily base with other 2 remote teams located in Milan and in Poland.

Software Engineer

08/2014 - 01/2015

Terravision Group, Rome

Enhancement and further development of a online automated bus ticket ecommerce application (Symfony2/Redis/NodeJs/Mysql) operating in Italy and England. Multilanguage and multi currency support, high scalability, performance optimization.

Software Engineer

04/2013 - 08/2014

QM Srl, Rome

Development of complex back-end application built to manage all the aspect of a little (tending to medium) italian company, from accountability to operational behaviours. Symfony 2 based with MongoDB, jQuery, nodejs.

Magento/Wordpress plug-ins development and customizations.
